# Lo stato della censura Internet nel 2020:

Aggiornamenti dall'Osservatorio Aperto delle Interferenze di rete

OONI

Free software project (started under The Tor Project) aimed at empowering decentralized efforts in increasing transparency of **internet censorship** around the world.

Since 2012, the OONI community has collected millions of network measurements from *more than 200 countries* around the world, shedding light on various instances of network interference.
